## Cam Bui

Platform DevOps Engineer
Experienced software engineer with expertise in GitOps and platform development.

linkedin: cambui github: ncbui ncbui.github.io

that enable scientists, healthcare providers, and operations specialists to explore their data.  Automated cloud infrastructure provisioning for distributed environments, enabling gitops configuration and reducing manual setup time by 50% for distributed environments.  Built scalable CI/CD pipelines using ArgoCD and Kubernetes and optimized developer start kits to reduce time-to-first-deployment for emergent teams and features.  Increase deployment frequency and reduced time to resolution for errors by standardizing exception handling and error monitoring, while enforcing security and compliance checks.  Skills: Python ReactUS (Kubernetes) (ArgoCD) (PySpark) (PostgreSQL) (Snyk) (Aqua)  2018 - 2020 Data Entry Invitae, Inc. Processed patient health records and streamline data quality checks.  Streamlined data quality checks by building reports that cross-reference databases during launch of newly-acquired products.  Skills: (EMR) (Salesforce) (Tableau)  2016 - 2019 Graduate Researcher Action & Consciousness Lab at SFSU Conducted, and analyzed behavioral experiments on automatic visual and syntactic processin https://doi.org/10.1037/cns0000208.  Skills: (R) (statistical analysis)  2016 - 2017 Health Policy Intern HPW, San Francisco State University Intern in the inaugural cohort of the Health, Promotions, and Wellness unit at SFSU.  Conducted focus groups for the newly-built Mashouf Wellness Center (MWC) that found that students on this commuter campus overwhelmingly needed places to rest. In 2024, MW launched the Zen Den, a free space to nap at SFSU.  Skills: (focus groups) (literature review) (semi-structured interviews)  Certificates  2022 AWS Cloud Practitioner. AWS	Platform Dev	Python, PostgresSQL, JavaScript, ReactJS, Pyspark
Nork  2021 - 2024 Consultant Software Developer Thoughtworks, Inc. Worked closely with cross-functional teams to build and maintain data pipelines and platforr that enable scientists, healthcare providers, and operations specialists to explore their data.  3 Automated cloud infrastructure provisioning for distributed environments, enabling gitops configuration and reducing manual setup time by 50% for distributed environments.  4 Built scalable CI/CD pipelines using ArgoCD and Kubernetes and optimized eveloper start kits to reduce time-to-frist-deployment for emergent teams and features.  5 Increase deployment frequency and reduced time to resolution for errors by standardizing exception handling and error monitoring, while enforcing security and compliance checks.  5 Kills: Python Reaculs (Kubernetes) (ArgoCD) (PySpark) (PostgreSQL) (Snyk) (Aqua)  2018 - 2020 Data Entry Invitae, Inc. Processed patient health records and streamline data quality checks.  5 Streamlined data quality checks by building reports that cross-reference databases during launch of newly-acquired products.  5 Kills: EMB (Salesforce) (Tableau)  2016 - 2019 Graduate Researcher Action & Consciousness Lab at SFSU Conducted, and analyzed behavioral experiments on automatic visual and syntactic processin https://doi.org/10.1037/cns00002098.  5 Kills: R (statistical analysis)  2016 - 2017 Health Policy Intern HPW. San Francisco State University Intern in the inaugural cohort of the Health, Promotions, and Wellness unit at SFSU.  5 Conducted focus groups for the newly-built Mashouf Wellness Center (MWC) that found that students on this commuter campus overwhelmingly needed places to rest. In 2024, MW launched the Zen Den, a free space to nap at SFSU.  5 Kills: (bocus groups) (literature review) (semi-structured interviews)  2022 AWS Cloud Practitioner. AWS  Education  2016 - 2019 Graduate coursework towards MA Social, Personality, and Affective Psychology San Francisco State University	DevOns	Kubernetes Infrastructure as Code (IaC) GitOps ArgoCD AWS
2011 - 2024   Consultant Software Developer Thoughtworks, Inc.   Worked closely with cross-functional teams to build and maintain data pipelines and platforr that enable scientists, healthcare providers, and operations specialists to explore their data.   Automated cloud infrastructure provisioning for distributed environments, enabling gitops configuration and reducing manual setup time by 50% for distributed environments.
